

DONNERSTAG, 30.10.2008 11:00 bis 12:30 Uhr
ABDOMEN / HERZ-THORAX / KMT
(Vorträge 10 min Redezeit + kurze Diskussionszeit)

PARALLELSITZUNG ABDOMEN

1. Non-HLA anti-endothelial cell antibodies do not lead to kidney injury

Nicolas Kozakowski, Nicole Huttary, Georg Böhmig, Angie Auer, Tammer Fahim, Heinz Regele
Wien

2. Clinical Relevance of Preformed C4d-Fixing and Non-C4d-Fixing HLA Single Antigen Reactivity in Renal Allograft Recipients

Markus Wahrmann, Gregor Bartel, Markus Exner, Heinz Regele, Günther F. Körmöczy, Gottfried F. Fischer, Georg A. Böhmig
Wien

3. Histogenomics: Association of gene expression patterns with histological parameters in kidney biopsies

Paul Perco, Alexander Kainz, Julia Wilflingseder, Afschin Soleiman, Bernd Mayer, Rainer Oberbauer
Wien

4. Duodenal - duodenal enteric drainage in pancreas transplantation combined with retroperitoneal placement a more physiological method?

Doris Duller, Daniela Kniepeiss, Silvia Schaffellner, Estrella Jakoby, Helmut Müller, Karlheinz Tscheliessnigg, Florian Iberer
Graz

5. CHARACTERISTICS OF DE NOVO MALIGNOMAS AFTER LIVER TRANSPLANTATION

Ivo Graziadei, Armin Finkenstedt, Wilhelm Oberaigner, Karin Nachbaur, Werner Mark, Wolfgang Vogel
Innsbruck

6. Combined Mycophenolate Mofetil and Minimal Dose Calcineurin Inhibitor Therapy in Stable Liver Transplant Patients is Nephro- and Hepatoprotective

Vito Cicinnati, Monika Lindemann, Christian Klein, Georgios Sotiropoulos, Guido Gerken, Susanne Beckebaum
Essen

7. Long term complications in HCV positive and HCV negative patients undergoing liver transplantation

Hugo Bonatti, Jaime Aranda-Michel, Marwan Ghabril, Denise M. Harnois, Victor Machicao, Justin Nguyen, Rolland C. Dickson
Jacksonville, USA

8. The role of Lipocalin-2 as an inflammatory marker in acute allograft rejection?

Felix Aigner, Herbert Maier, Peter Obrist, Hubert Schwelberger, Stephan Sickinger, Jakob Troppmair, Raimund Margreiter
Innsbruck, Zams

PARALLELSITZUNG HERZ-THORAX

1. Bilirubin rinse of the graft suppresses MAPK activation and mediates protection in cardiac ischemia reperfusion injury

Florian Bösch, Michael Thomas, Pamela Kogler, Dominik Wiedemann, Jakob Troppmair, Raimund Margreiter, Robert Öllinger
Innsbruck, München

2. INCIDENCE AND OUTCOME OF CMV-INFECTION IN THE NEWEST CARDIAC TRANSPLANT ERA

Arezu Aliabadi, Claudia Bauer, Heidrun Kerschner, Martina Groemmer, Stephane Mahr, Daniel Zimpfer, Andreas Zuckermann
Wien

3. Virtual Histology Intravascular Ultrasound in Late Cardiac Allograft Vasculopathy

Thomas Oberndorfer, Matthias Frick, Jakob Doerler, Christine Mussner, Daniel Hoefler, Herwig Antretter, Gerhard Poelzl
Innsbruck

4. Heart Transplantation in a Patient with Cardiac Amyloidosis

Barbara Fellner, Daniel Zimpfer, Gabriele Jakl, Peter Kalhs, Reinhold P. Linke, Kurt Huber, Andreas Zuckermann
Wien, Martinsried

5. Catastrophic graft-versus-host disease after lung transplantation proven by PCR-based chimerism analysis

Nina Worel, Andja Bojic, Michael Binder, Gerlinde Mitterbauer-Hohendanner, Berthold Streubel, Thomas Staudinger, Gottfried Locker
Wien

6. Regulation of the RNA Inhibition Component Dicer in Acute Lung Transplant Rejection

Maya Keplinger, Peter Jaksch, Barbara Zweytizk, Marcus Saemann, Walter Klepetko, Afschin Soleiman
Wien

7. RESULTS OF LUNG TRANSPLANTION FOR COPD/EMPHYSEMA

Severin Semsroth, Christian Geltner, Christoph Hörmann, Elfriede Ruttman-Ulmer, Herbert Hangler, Günther Laufer, Ludwig Müller
Innsbruck

8. The role of Matrix Metalloproteinase 9 and Lipocalin-2 complex in ischemia and reperfusion of the transplanted heart

Herbert Maier, Albert Muigg, Evelyn Wallnöfer, Hubert Schwelberger, Jakob Troppmair, Raimund Margreiter, Felix Aigner
Innsbruck

PARALLELSITZUNG KMT

1. Pulmonale Komplikationen nach hämatopoetischer Stammzelltransplantation im Kindesalter. Inzidenz und Risikofaktoren.

Tamás Fazekas, Anita Lawitschka, Markus Seidel, Andishe Attarbaschi, Christina Peters, Susanne Matthes
Wien

2. Association of donor and recipient LCT-13910 genotypes with outcome after allogeneic hematopoietic stem cell transplantation in AML and MDS-patients

Hanns Hauser, Otto Zach, Otto Krieger, Josef Koenig, Hedwig Kasparu, Michael Girschikofsky, Dieter Lutz
Linz

3. Transplantation of bone marrow stem cells, immobilized in biodegradable 3-D matrix as bioartificial neo-tissue for functional supporting damaged organ

Murat Shagidulin, Mikhail Krashennikov, Ihor Iljinsky, Natalia Mogeiko, Eugeny Nemets, Victor Sevastjanov, Nina Onishchenko
Moskau

4. Haploidentical stem cell transplantation with subsequent donor lymphocyte infusions following reduced intensity conditioning in three children/adolescent with refractory/relapsed malignancies

Christian Urban, Wolfgang Schwinger, Petra Sovinz, Herwig Lackner, Martin Benesch, Andrea Moser
Graz

5. Radioimmunotherapy: hopeful treatment in refractory diseases

Gabriele Kropshofer, Ansgar Schulz, Wilhelm Friedrich, Andreas Klein Franke, Bernhard Meister
Innsbruck, Ulm

6. Improved mobilization of peripheral blood CD34+ cells by AMD3100 plus granulocyte-colony-stimulating factor (G-CSF) in hard to mobilize patients

Nina Worel, Beate Pribitzer, Kornelia Gerhartl, Heinz Gisslinger, Margit Mitterbauer, Gerda Leitner
Wien

7. First case of breakthrough pulmonary Aspergillus niveus infection in a patient following allogeneic hematopoietic stem cell transplantation

Jutta Auberger, Cornelia Lass-Flörl, Johannes Clausen, Romuald Bellmann, Walter Buzina, Günther Gastl, David Nachbaur
Innsbruck, Graz

8. Stem cell collection and autologous transplantation after TD or VTD (Velcade, thalidomide, dexamethasone) induction regimens results in high complete

Nina Worel, Margit Mitterbauer, Jutta Ackermann, Hildegard Greinix, Christoph Zielinski, Peter Kalhs, Johannes Drach
Wien
